

IDEXX Data Backup and Recovery Service Analyzer

How much storage do you need?

Determine the storage capacity you need

The IDEXX Data Backup and Recovery Service Analyzer is an easy-to-use tool you can use right now to estimate the total amount of data you should back up when using the IDEXX Data Backup and Recovery Service. This tool quickly scans your IDEXX Cornerstone® server to calculate how much storage space will be required to back up your business-essential data. With this estimate, your IDEXX Representative can provide you with a quote for the monthly cost associated with the IDEXX Data Backup and Recovery Service.

How to download, install and run the analyzer

Follow the steps below to download the Data Backup and Recovery Service Analyzer (formerly known as “VetVault”). Once installed, you can run the Analyzer to estimate your data storage needs. Typical backup files include daily transactions and users, documents, and settings.

1. Log in to the IDEXX Cornerstone® Practice Management Software server as the administrator.
2. Download the IDEXX Data Backup and Recovery Service Analyzer Installation application at idexx.com/storageanalysis under the Storage Analysis Download section.
3. If prompted by your Internet browser, select **Run** to begin the installation immediately following the application download.
4. Follow the on-screen steps to complete the installation process.
5. On your desktop, double-click the **IDEXX.DBR.Analyzer** icon to begin the analysis.
6. Contact your IDEXX Representative at 1-888-224-4408 to receive a quote for the monthly cost of using the IDEXX Data Backup and Recovery Service.
